Jonathan_Gottzmann_Resume.pdf

I invite you to explore my online virtual resume, where I've gone beyond the traditional static resume format. Instead of simply listing my skills, I've built a fully functional website that showcases them in action. Each skill listed links to screenshots or projects that demonstrate my hands-on experience and active application of the technologies. This interactive format offers a transparent view of my capabilities and commitment to continuous learning in the tech field

Personal Portfolio Website
Built and deployed a responsive HTML/CSS portfolio site using GitHub Pages
